GENERAL MILES' ORDERS

All Posts and Ports to Keep on the Lookout.

REPLIES OF THE COMMANDERS

McKinley Has a Dispatch Saying All is Quiet—The Wounded at Key West Are Improving.

By Wire to THE TELEGRAM.

Washington, Feb. 22—Gen. Miles today sent his second general order to the department of the east repeating his former order that all posts and ports be on the alert and prepared for immediate action. The various commanders have replied, stating that their instructions with reference to the preservation and care of the batteries, magazines and ammunition would be fully carried out.

M'KINLEY'S DISPATCH.

Philadelphia, Feb. 22—President McKinley today received a dispatch saying there was no change in the situation.

WOUNDED IMPROVING.

Key West, Feb. 22—The injured men of the Maine at the hospital barracks are all doing well.

RECRUITING THE ROAD FORCE.

Cases Being Rushed Through Rapidly in Court.

Will Wicker, Lodge Hill and Henry Palmer came before his honor on the charge of stealing blankets. One of the coons testified that he knew the blankets were in a wagon, though it was so dark that he could not see the wagon. Being asked how he knew the blankets were in the wagon he replied that he smelled them. Wicker and Palmer got 12 months on the public roads and Hill got 8, his honor adding that he took off 4 months because he kept his mouth shut and did not lie.

Lizzie McCleary, for assault, was found not guilty.

C. B. Pool plead guilty to carrying concealed weapons and was given the costs.

D. O. Vaughn, the courageous gentleman who beat his wife, was so proud of the performance that he took the court into his confidence and admitted that he did it.

Henry Hall confused the ownership of worldly goods and was given a year on the highways for his carelessness.

Gibb Foust plead guilty to carrying concealed weapons and got the costs.

In the habeas corpus matter of G. W. Parker for the recovery of his wife, who, it is claimed, is kept away by her father, the writ was dismissed. This leaves the young woman free to live with her parents or with the man she married.

Three Million Dollars.

It is estimated by parties in position to know that $3,000,000 of North Carolina moneys is spent annually for shoes in the eastern markets. Why not buy them at home and enrich our own people and state with the legitimate profit on those goods?

The Greensboro Evening Telegram says that they have but one exclusively wholesale shoe house in our state, we should patronize it and encourage the establishment of others. The people of North Carolina have sent their money to foreign markets long enough. Why continue to increase the wealth and growth of Eastern cities when we have learned that we can buy from home people the same goods at the same price and save the freights. Many of our merchants now buy their groceries, drugs and hardware at home—they can just as well buy their full line at home and thereby give employment to hundreds of North Carolina people and thousands of dollars capital. We are pleased to note the success of the Simpson-Shields Shoe Co. of Greensboro, and trust before many years the shoe jobbing line will be as well represented in more of our cities.—News and Observer.

Cornwallis' Hitching Tree.

Mr. Boyce Bell, of Pineville, sends the Observer several pieces of wood from the old gum tree which was blown down in his yard last week, was said to be the tree which Cornwallis hitched his horse. Anyone who would like to have a piece of the wood as a souvenir can get same by calling at the Observer office.—Charlotte Observer.

[WRITTEN FOR THE TELEGRAM.]

Thou warrior, statesman, sage, we honor thee,
Not with the cringing homage of a slave,
But as a race who love the good and brave
We stand with firm, unbended knee
For thou it was who taught us to be free,
Thy stainless wisdom and unselfish might,
So clear in forum and so strong in fight
Will ring through all the years that yet shall be.

We honor thee, and in all reverence bend
Before our God and pray His hand so strong
May help us, guide us, and fore'er defend
Us in the right and shield us from the wrong;
That we may ne'er forget what thou hast taught
Nor loose the freedom which thy valor bought.

The Dreyfus Secret.

London, Feb. 20—The Daily Telegraph will tomorrow make a spread on a story from Brussels to the effect that the French government's jealously guarded secret in the Dreyfus affair is that a secret agreement existed between Russia and Germany, by which the former undertook to furnish Germany with all information regarding the French military arrangements, while Germany was to supply similar information concerning another power, presumably Austria. Dreyfus became aware of this agreement and traded upon it.

Wages and Cost of Living.

While it may be true that wages in the south are not so high as they are in the north, it doesn't follow that southern operatives don't live as well as the northern operatives do. In the south comparatively little clothing is required, and the amount of fuel needed is small. The cost of food is also less. When all of these things are taken into consideration it is probable that southern operatives live about as well as the operatives of the north.—Savannah News.

IN CASE OF WAR.

What Troops in North Carolina Would be Called.

An officer of the State Guard smiled at the the telegraph tender of a company's service to the President. That is not the way the troops go into service. Suppose the President calls on the governor for say 5,000 men. The governor would order the State Guard on active duty. It is part of the National Guard, the first reserve of the regular army. The regiments now have only two battalions. Members who had served with the colors, say for the past ten years, would be called on to fill the ranks and make at once each regiment of twelve companies, giving three battalions to each. This would give 4,800 officers and men in the brigade. The Naval Reserves would recruit in the same way to 500 men in, say two days, the thing would be done. Then all that would be necessary would be to rush in a requisition for the equipments and uniforms for say 3,000 men. The 1,800 now in the guard would, of course, be available for instant duty, in the state or out of it. It is a force always the command of the governor or the president. It is armed, clothed and equipped entirely by the United States; in that respect not costing the state a cent. The value of such a force, not perhaps apparent to the mass of the people at ordinary times, becomes doubly so now. The brigade is now but a skeleton, but with a complete organization and equipment.—Col. Olds' Correspondence.

A GREAT WHARF BURNED.

Tremendous Work of a Fire That Started in a Box Car.

Monterey, Mex., Feb. 21—The new supervision, was totally destroyed by Central Railroad, under government supervision, was totally destroyed by fire Sunday. The fire started in a box car on the east end of the wharf, and gradually spread to the sheds. The cause of the fire is unknown. The construction of the wharf was commenced in July, 1896, and it was considered to be one of the finest on this continent. Its length was 2,575 feet and all is burned. The custom house under construction and nearly completed, was damaged to the extent of $800,000. The total loss on the wharf, custom house and merchandise is nearly $2,000,000; fully insured.

Body Drifted 200 Miles.

THE WORDS OF WASHINGTON

Repeated in McKinley's Address Today.

CULTIVATE PEACE AND HARMONY

Referred to The Value of Education And The Necessity of Maintaining Public Credit.

By Wire to THE TELEGRAM.

Philadelphia, Feb. 22—President McKinley in his address to the students at Pennsylvania University here today referred to the value of education in a republic and the necessity for an unimpeachable public credit. Emulating Washington's idea of the necessity of having no stain of just obligations violated, he denounced the "prophets of false teachings" and repeated Washington's words about a foreign policy, "observe good faith and justice toward all nations and cultivate peace and harmony with all. Religion and morality alike enjoin it."

BUTLER ON EWART.

Says He is Totally Unfit for the Office of Judge.

A Washington special to the News and Observer says:

Senator Butler said today that the impression that he was half hearted in his opposition to the confirmation of Judge H. G. Ewart's nomination was erroneous. "I shall do all in my power to defeat the nomination," said the senator to the News and Observer correspondent, "and after I present all the facts and evidence in the case I feel certain the judiciary committee will make an unfavorable report on the nomination. I am opposed to Judge Ewart's nomination on the ground that he is totally unfit for the high office to which he has been appointed. He is in no sense qualified to discharge the duties imposed upon him; he has not a judicial temperament, nor has the experience required, nor ripe judgement, which is a requisite for the office. I may have some interesting data to present to the judiciary committee this week, which will cause Judge Ewart's friends to think a little."

This is the third time that Judge Ewart's nomination has gone over, and in view to what Senator Butler says to your correspondent, the delay in considering the nomination is significantly the last.

[Senator Butler said while here that so far from Ewart's confirmation being merely held up temporarily, he had good reasons to believe he would not be confirmed at all. Mr. Butler did not state the grounds of his belief.]

ANOTHER "EXPLOSION"

Resulting From "Rivalry" of Negro "Societies."

Havana, Feb. 21—A great panic occurred in the city at 12 o'clock last night by the explosion of a dynamite bomb during the ball at the Irijoa theatre.

All the lights in the theatre were put out and indescribable confusion prevailed for several minutes. Four persons were injured. The official version of the affair is that the explosion was caused by "rivalry" between negro societies.

Mardi Gras in New Orleans.

New Orleans, Feb. 21—The New Orleans carnival was opened today by Rex and his retinue. The river was covered with a brilliantly decorated flotilla when the royal yacht appeared with the King of Mirth. The three warships in port—Austrian, French and American—were attractively decorated. The revenue cutters participated. The procession included the military, the king's retinue, lords of the realm and citizens.

Proteus appeared tonight followed by a grand society ball. Tomorrow Rex appears during the day and Comus at night, and both give balls.

An Embarrassing Situation.

"What is the mater?" asked the telephone official. "What has happened?"

"Two men are talking in some foreign language," answered the monitor "and I don't know whether to be shocked or not.—Washington Star.

More Accurate Service in Greensboro Than Baltimore

Mr. C. M. Vanstory had his little girl's eyes examined in Baltimore last year and went with the prescription to one of the largest and best known optical houses there to have the glasses made up. FORTUNATELY one of the lenses got broken recently and was carried to the Greensboro Eye Specialist to be replaced. He saw at a glance that neither lens accorded with the prescription, and so changed them both. Mr. Vanstory sent the old lenses with an explanation to the occulist who had given the prescription and in reply received the following;

THE BIRTHDAY OF WASHINGTON.

The birthday of the man through whose genius and firm faith the liberties of the country were achieved is second in importance only to the birthday of the nation itself. Perpetuity in national life will come most surely through a conformation to those principles regnant in the public life of its first president.

The Progressive Farmer is disposed to be skeptical as regards the attempt at fusion of all the silver forces. It declares that "the question of paramount importance should be made the issue." Battle royal between Zeke Bilkins and the Honorable Hallelujah may be sniffed afar. If two irresistable air currents rush together what will be come of the other one?

The people know what they want.—Progressive Farmer.

They are also beginning to get a line on the desires of certain disinterested patriots in the old state. They are beginning to learn that Mr. Marion Butler desired the senatorship quite as strongly as he did their welfare.

The reports do say that Mr. Butler attended a magnificent banquet while in Minneapolis. His constituents had been left to suppose that what time the initiative and referendum and other schemes for saving them were not revolving in his capacious head was spent in fasting and prayer.

Judge Robinson's charge to the grand jury yesterday was highly unique and has furnished much material for conversation among those who heard it. If His Honor will only induce the grand jury to live up to the charge, there will be many cases to come before him.

Mr. Marion Butler, after letting the light of his countenance shine on our town for several days, intermittently, has returned to his first love—uprooting conspiracies against the people and throttling hydra-headed monopolies.

The announcement of the Reverent Samuel P. Jones that he will run for governor of Georgia is another proof that he would have found the place of an advertising agent even more profitable than being an evangelist.

If the English press is dissatisfied with the way in which America conducts her own affairs, it would be interesting to know with what sentiments it regards the French conduct of English affairs in West Africa.

The cuts published in the Sunday New York Journal of the interior of the visiting Spanish warship is hardly a positive proof that Spain has taken Mr. Hearst into her confidence.

The proximity of the Key West correspondent of the Associated Press to Cuba has evidently led to his infection with the Spanish method of news distribution.

The editorial style of the Honorable Hallelujah Ayer, who is displeased with the build of the democratic party, may be briefly described as vaudeville.

While it was not possible to bring the dead of the Maine home to the flag it is not impossible that sometime the flag may be carried to them.

The offer of Spain to help the United States in the investigation of the Maine disaster has somewhat too much of proprietary pride about it.

Apparently the officers of the Vizcaya are of the opinion that their reception would be a warm one.

LOST ON THE MAINE.

Mess Attendant Whose Family Furnished Many Men for Vessels.

Washington, Feb. 20—Among the men lost on the Maine was a colored mess attendant named Pinkney from Annapolis. This family has furnished more captains' stewards, cooks and wardroom boys for naval vessels than any half dozen colored families in the country.

For years London Pinkney was head steward at the naval Academy. Every cadet graduated there for thirty years knew London, his big, fat body and genial smile making him a favorite with all. London used to go along on the practice cruises, and sell cakes and dried apple pies on credit. The cadets often forgot to pay London, but he never thought anything of it. When there was some specially favorite dish served at the Academy London was in demand. Word would come back generally that the dish was exhausted. Appeals to the waiters would invariably bring back the reply that "Pinkney say dare ain't no mo', and when Pinkney say dare ain't no mo', dare ain't no mo'." This settled it.

SECEDED FROM THE UNION.

Grand Army is Expecting to Secede from Major Howe.

San Francisco, Feb. 20.—Maj. Wm. O. Howe, eccentric veteran of the civil war, who recently wrote to Secretary Sherman seceding with his island in Suisun Bay from the United States because Mr. Hanna was elected senator from Ohio, will be courtmartialed by the Grand Army of the Republic. Howe occupies with his family a small island off the Contra Costa shore in Suisun Bay, about thirty miles from this city.

When the news came of Mr. Hanna's success Howe became excited and wrote a letter to Secretary Sherman declaring that after this election by "questionable means" he could not with self-respect remain a citizen of this country, and he begged to withdraw his island home from under the jurisdiction of the United States.

BEFORE THE SUPREME COURT.

Motions by Attorney in North Carolina Railroad Case.

Washington, Feb. 21—In the North Carolina railroad commission case, which came up in the Supreme Court of the United States today, a motion to dismiss was submitted by J. C. Mac Rae, W. H Day, and A. C. Avery; and to affirm by R. O. Burton and Thos. N. Hill. A motion of attachment for contempt and to restore plaintiffs in error to office was submitted by Mr. Burton and Mr. Hill, and opposed by Messrs. MacRae, Day and Avery.

The State Normal Magazine.

The current number of the State Normal Magazine is at hand and readable as usual. The regular contributions are well written: "Dante" by Ethel Foust, "Carolina Gray" by Lewis Dull and "Christmas at the Normal" by Susie McDonald, being written by students. The editorials are thoughtful, the suggestion that an athletic association be organized being especially practical and timely. "In Lighter Vein" is always entertaining and the anonymous apotheosis of the hair pin and the study in color by Miss Bynum are cleverly written bits of verse.

Yellow Pine, 50 cents, is the cheapest because it cures. All druggists.

Something to Depend On.

Mr. James Jones, of the drug firm of Jones & Son, Cowden, Ill., in speaking of Dr. King's New Discovery, says that last winter his wife was attacked with la grippe, and her case grew so serious that physicians at Cowden and Pana could do nothing for her. It seemed to develop into hasty consumption. Having Dr. King's New Discovery in store, and selling lots of it, he took a bottle home, and to the surprise of all she began to get better from first dose, and half dozen dollar bottles cured her sound and well. Dr. King's New Discovery for consumption, coughs and colds is guaranteed to do this good work. Try it. Free trial bottles at C. E. Holton's drug store.

Only to Think of It!

For ten years I suffered with a sore on my mouth which caused me some uneasiness, and after having the doctors to take it out without effecting a cure, I began to take Mrs. Joe Person's Remedy, two years ago. After I began to take the medicine the sore discharged a great deal, but I soon began to feel better every way and knew it was doing me great good. I took twenty-two bottles and it made a perfect cure of my case. My general health has been excellent ever since taking it. I cannot say too much in praise of the medicine, it is certainly a great medicine.

The growth of sentiment in favor of permanent work on our county roads is a most encouraging sign of a progressive spirit. It is not only progressive, it is wise. The roads in Mecklenburg county have not only been of the greatest good to that county, but have attracted attention throughout the country.

CONCERT WELL ATTENDED.

The Karger Aggregation Well Received Here.

The large auditorium at the Normal college was filled last night to hear the Karger Concert Company. There was a good attendance of city folks and a a large delegation of young ladies from G. F. C. present. All the artists were encored repeatedly though there was just a suggestion of humor in the encores given the basso, Mr. S. P. Veron. As to Mr. Karger his playing was undoubtedly of a very superior order and the applause he received after each appearance was simply deafening. His interpretation of the Intermezzo by Moscagni was especially fine while his rendering of Annie Laurie as an encore gave an opportunity for comparison with other violinists that was not the disadvantage of Mr. Karger. Miss MacClanahan was also a favorite with the audience. "I'se Gwine Back to Dixie," sung as an an encore, caught, as always, the southern audience. It was given to the singers own accompaniment. Miss Marsh, the pianist, is also a very finished artist. The company left this morning for Charlotte where it appears tonight. After the concert a half an hour was spent in delightful conversation in the auditorium and halls.

One of the Best.

One of the most important engagements at the Academy of Music this season will be that of Mr. Augustin Daly's most successful comedy "A Night Off" which was the means for setting the patrons of Mr. Daly's theatre New York and metropolitan theatre goers in a laughing humor for a period extending over a hundred nights, and it would probably run for many months longer were it not for the fact that Mr. Daly will not under any circumstances allow any success of his no matter how great to interfere with his annual Shakespearian season which have helped to earn for him his great reputation. This company will appear on Friday evening February 25. Admission $1, 75c., 50c.; children 25c.

The Schedule to Change.

We understand that there is to be a change of schedule on the Southern on next Saturday. The mixed nighttrains numbers 11 and 12 to and from Raleigh will become through passenger trains to and from Norfolk. The Norfolk and Chattanooga sleeper will be operated on 37 and 38 vestibule.

Nos. 15 and 16 will not carry Norfolk passengers via Selma, but will go straight through to Goldsboro. Numbers 35 and 36 will run as at present. This will give Greensboro improved service between here and Raleigh, for which the Southern has our thanks. This is a rumor, subject, of course, to the official schedule of the company.

Richest in the State.

Buena Vista Lodge, No. 21, I. O. O. F., of this city, is without doubt, the largest and wealthiest lodge of any secret order in North Carolina. It has now one hundred and seventy-two members, and owns in property and paraphernalia, money, etc., about fifteen thousand dollars. The lodge is still growing, and the members take pardonable pride in the showing made. There is work tonight in the 3rd degree, and all members are requested to be present.
